**Summary:** On October 15, 2004, Greg Blue, Senior Director, Government Affairs, Dynegy, Inc., met with David Gamson, advisor to Cmmr. Brown, in San Francisco. Also present was Brian Cragg, representing West Coast Power. Blue indicated West Coast Power’s support of the ALJ’s draft decision on the Resource Adequacy Requirement (RAR) and the acceleration of the implementation of the RAR. Blue and Cragg discussed the concerns about locational market power and offered suggestions on how to mitigate market power. Blue and Cragg also discussed the current structure of the California electricity market and the prospects for the electric supply shortages next summer. Blue also suggested that there are three elements necessary for the improved operation of electricity markets: RAR, a capacity market, and deliverability standards.

                 A00-11-056      Pacific Gas and Electric Company, for emergency application to adopt a rate stabilization plan.

                 A00-10-028      The Utility Reform Network, for modification of Resolution E-3527.

**Summary:** On October 18, 2004, Lee Schavrien, Vice President of Regulatory Affairs of San Diego Gas & Electric Company (SDG&E), had a telephone conversation with Manuel Ramirez, advisor to Cmmr. Wood. Steve Roscow from the Energy Division also participated in the communication. Schavrien requested the Commission's support for the Cmmr. Peevey's alternate pointing out that it was the correct and fairest allocation amongst the proposed decision and varying alternates currently before the Commission. Schavrien further stated that on a system average basis, for every \$19, million shifted to SDG&E's customers, their rates would be impacted by one tenth of a cent per kWh, as opposed to Pacific Gas and Electric Company and Southern California Edison Company customers, who would feel the same impact for shifts of between \$70 and \$75 million.

**Summary:** On October 18, 2004, Erik Jacobson, Chief Regulatory Relations, Pacific Gas & Electric Company (PG&E), met with Manuel Ramirez, advisor to Cmmr. Wood, in San Francisco. Also present were Michael Hoover, Director of Regulatory Affairs, and Colin Cushnie, Manager, Energy Planning, for Southern California Edison Company. Jacobson discussed the preliminary bill impact analysis prepared by the utilities. Jacobson identified apparent errors in San Diego Gas & Electric Company's analysis. Jacobson emphasized the importance of achieving an equitable allocation of above-market costs under any permanent cost allocation method. Jacobson reiterated PG&E's support for Cmmr. Brown's alternate proposed decision.

**Summary: LATE FILED.** On October 14, 2004, Pamela Easter of the City of Rancho Cucamonga met with Cmmr. Brown in San Francisco. Also present was David Gamson, advisor to Cmmr. Brown. Easter explained that the facts support the view that only a very small percentage of the state's overall expected load growth over the next decade will be handled by new publicly-owned utilities. Easter stated that when the City made its decision to form its public utility there was no way of knowing that its future customers might be made responsible for any Commission-imposed surcharges and that imposing such surcharges would significantly increase the City's utility customers' electricity costs and therefore could undermine the City's economic development. Easter expressed concern about the billing and collection that would be required should surcharges be imposed.

**Summary:** On October 19, 2004, Alvin S. Pak, Director, State Regulatory Affairs of Sempra Energy Global Enterprises (SEGE), met on behalf of Sempra Energy Solutions with David Gamson, advisor to Cmmr. Brown, in San Francisco. Also present was Thomas P. Corr, SEGE Regulatory Policy Manager. Written material (attached to the notice) was used. Pak and Corr explained that eliminating Firm LD contracts from Resource Adequacy (RA) accounting eligibility prior to the availability of a replacement product or market would hinder the ability of non-utility LSEs to comply with the Commission's proposed RA counting protocols; will certainly increase costs to those providing DA service; and may threaten the ability of some non-utility LSEs to continue to provide DA service, or to expand such service. Pak and Corr proposed that the Firm LD contract issue be deferred to Phase 2 of the RA proceeding.

**Summary:** On October 21, 2004, Michelle A. Robinson, Vice President Regulatory, Verizon California Inc. (Verizon), met with Peter Hanson, advisor to Cmmr. Brown, and Cmmr. Kennedy, in two separate meetings in San Francisco. At the meeting with Cmmr. Kennedy also present were Tim Sullivan and Karl Bemederfer, advisors to Cmmr. Kennedy. Thomas Maguire, Senior Vice President Resale Services, and Kurt Rasmussen, Director, Regulatory, for Verizon, participated in the meetings. Written materials (attached to the notice) were used. Maguire and Robinson explained that Verizon's batch hot cut process is state-of-the-art. Verizon pointed out that the draft decision requires an extensive series of workshops to establish processes that Verizon has already implemented, and therefore should be modified or eliminated. Robinson emphasized that it is practical for the Commission to await the Federal Communications Commission's final rules before requiring Verizon to participate in workshops. Robinson urged that, while the draft decision takes official notice of the New York order, the Commission should incorporate additional guidance from that order.

**Summary:** On October 22, 2004, William C. Harrelson, Senior Counsel for WorldCom, Inc. (MCI), met with Jonathan Lakritz, advisor to Cmmr. Wood, in San Francisco. Also present was Anita Taff-Rice, outside counsel for MCI. Written materials (attached to the notice) were used. Harrelson and Taff-Rice discussed the proposed decision (PD) issued by ALJ Pulsifer regarding batch hot cuts. Harrelson pointed out that the Commission had jurisdiction to resolve hot cut issues, was not preempted by USTA II or the Federal Communications Commission's Triennial Review Order Remand Notice of Proposed Rulemaking, and that the PD did not reach beyond the scope of the Commission's authority. Harrelson explained that it is not just 'batch' hot cut but also seamless, efficient, timely and economical real time ongoing hot cut processes that are essential to the prospects for mass market competition. Harrelson indicated that the Commission's decision on hot cut issue would have a serious impact on whether MCI pursues competition in the California mass market using unbundled loops in combination with its own switching facilities. Taff-Rice discussed technical information regarding batch hot cuts contained in the record of the proceeding.

## Economic Development Rate (Schedule ED).

**Summary:** On October 22, 2004, Jennifer Dowdell, Manager, Regulatory Relation, Pacific Gas & Electric Company (PG&E), met with David Gamson, advisor to Cmmr. Brown, in San Francisco. Also present was Stan Kataoka, Manager, Service Analysis, for PG&E. Dowdell discussed PG&E's interim motion to extend an economic development rate incentive to Amy's Kitchen. Dowdell discussed the concerns expressed by Amy's Kitchen about the California business environment and the regulatory impediments to growth in California. Kataoka discussed why economic development rate incentives are critical elements used to retain business customers, and that such incentives provide positive benefits to all PG&E customers by retaining contribution to margin that would otherwise have to be recovered from remaining ratepayers.

**Summary:** On October 26, 2004, Devra Bachrach, Staff Scientist at Natural Resources Defense Council, met with Steven Weissman, advisor to Cmmr. Wood, in San Francisco. Bachrach discussed some of the differences between the avoided costs currently used in the energy efficiency proceeding and the new avoided costs under consideration in this proceeding.
